

Please do not weaken New Jersey's highly successful Do Not Call Law. If I have done business with a company in the last 18 months or however long ago, I contact them myself when I am interested in doing more business with them. Getting a call from a company for whatever reason will only make me cut the call very short by requesting they not call me and also make me consider taking my business to a company that does not call me. Thank you for your consideration and cooperation in this VERY important matter.  
Sincerely, Joan, Clinton, NJ
